Final Report

National Science Day Celebration 2025

Date 28 Feb 2025

Organized by: IQAC Cell
As per Guidelines of: MPCST, Bhopal

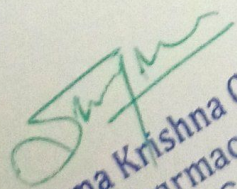

Ref No- IQAC 2025 PHARMACY 013

1. Introduction :

The Internal Quality Assurance Cell (IQAC) of the institution successfully organized the **National Science Day 2025** celebration in accordance with the guidelines of the **Madhya Pradesh Council of Science & Technology (MPCST), Bhopal**. The programme was conducted to commemorate the contribution of Indian scientists and to promote scientific temper, innovation, and research culture among students and faculty members.

2. Table: Objectives vs Outcomes of National Science Day Celebration

S. No.	Objectives	Outcomes
1	To promote scientific awareness and scientific temper among students	Students developed a better understanding of scientific concepts and their relevance in daily life
2	To encourage innovation, creativity, and research-oriented thinking	Increased student interest in research activities, model making, and innovative ideas
3	To highlight the role of science and technology in national development	Participants gained awareness of the contribution of science and technology to societal and economic growth
4	To motivate students to pursue scientific inquiry and problem-solving approaches	Improved analytical thinking and curiosity towards solving real-world problems
5	To align institutional academic activities with MPCST initiatives	Successful implementation of MPCST guidelines and objectives at the institutional level
6	To ensure quality enhancement through IQAC monitoring	Strengthened quality culture and effective academic planning under IQAC supervision

3. Summary of the Programme :

The National Science Day programme was inaugurated with an introductory address highlighting the significance of the day and its relevance in contemporary society. Various academic and scientific activities such as **expert lectures, poster/model exhibitions, quiz competitions, and interactive sessions** were organized.

Resource persons and faculty members delivered talks on recent developments in science and technology, emphasizing sustainable development, innovation, and the application of scientific knowledge for societal benefit. Students actively participated and showcased their ideas, models, and research-oriented presentations.

The IQAC ensured effective planning, coordination, and quality monitoring of the programme, making the event academically enriching and well-structured. The celebration successfully fulfilled the objectives outlined by MPCST.

4. Conclusion :

The National Science Day celebration organized by the IQAC Cell proved to be a meaningful and impactful academic event. It contributed significantly to promoting scientific temper, innovation, and quality education in the institution. The programme successfully supported the vision of MPCST and reinforced the role of IQAC in ensuring continuous academic improvement.
