

FINAL REPORT

An expert lecture was successfully organized under the IQAC Cell & mining department on the topic "How to Prepare Mining Plan and Sections and Essential Maps for Mining Plan." The session was delivered by Dr. Rakesh Singh, Director, Shri Ram Geo Pvt. Ltd., Satna.

The objective of the lecture was to provide students and faculty members with practical knowledge and technical understanding of mining plan preparation, including the development of sections and the importance of various maps required in mining operations.

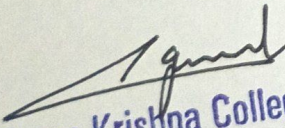

Dr. Rakesh Singh explained the step-by-step procedure for preparing a mining plan, highlighting essential components such as geological data, layout design, and statutory requirements. He also discussed different types of maps used in mining, including geological maps, surface plans, and environmental plans, emphasizing their role in efficient and sustainable mining practices.

The lecture was highly informative and interactive. Participants actively engaged in the session and clarified their doubts through discussion. The expert shared real-life examples and industry practices, which enhanced the learning experience.

Overall, the program was successfully conducted and proved beneficial for the academic and professional development of the participants.
